

The Take Five Way of a Daycare Evaluation

The Evaluation Experience

Your pup's first visit is an important step in ensuring they feel comfortable and confident in our daycare environment.

We take a personalized, low-stress approach to evaluations so every pup is set up for success. Our goal is to understand your pup's unique personality, play style, and needs so we can create the best possible experience for them.

What to Expect on Evaluation Day

We move at your pup's pace every step of the way

Arrival & Welcome

Initial greeting, reviewing details and answering questions

Getting Comfortable

Time to explore, decompress, and begin to settle in

One-on-One Introductions

Thoughtfully matched dogs, one at a time

Small Group Experience

Gradual transition into a small group setting

Observation & Support

Our team guides, redirects, and supports them throughout the visit

As your pup moves through their visit, we're thoughtfully observing:

Comfort in a group setting

Play style and social skills

Ability to settle and take breaks

Response to guidance and handling

Confidence and stress levels

What is an evaluation?

Your pup's first visit with us! We observe how they interact in a group setting and how they adjust to our environment. This helps us make sure daycare is a safe, fun, and positive experience for them.

Every pup is different

Some pup's jump right in, while others take time to warm up. Both are completely normal! We move at your pup's pace and provide the support they need to feel confident and comfortable.

You're welcome to stay!

We encourage you to stay and observe during the evaluation. It's a great way to see our process, ask questions, and feel confident in your pup's experience and comfort level.

Understanding Your Pup's Results

Thriving in Group Play

Confident, social, and enjoying the group environment

Still Getting Comfortable

Some pups benefit from shorter visits or added support

Not the Right Fit

We'll guide you toward alternative options that better suit your pup
